

CONTROLLED ASSESSMENT AND COURSEWORK AT GCSE AND A-LEVEL 2015-16

Controlled Assessment and Coursework are integral parts of the learning experiences at GCSE and A-Level and feature in most subject specifications across all examination boards. Such arrangements are considered beneficial for many students but all schools recognise the demands that Controlled Assessment and Coursework place on pupils, especially as preparatory work can take place in a number of subjects simultaneously.

Down High School produced a Controlled Assessment Policy in 2010, which complies fully with the regulations laid down by the Joint Council for Qualifications. All parents of pupils in Years 11 and 12 should have received a letter which explains the Controlled Assessment process and how it can account for as much as 60% of the total number of marks for some GCSE subjects.

Like many schools, Down High has chosen to complete Controlled Assessment within a classroom context, meaning that preparation and completion is part of the day-to-day classroom experience. Consequently, the timetable below will show how, in certain subjects, Controlled Assessment tasks are on-going. Exam-style sessions in certain subjects such as Geography and History can be affected by absence, school trips and other activities; teachers will, therefore, communicate the specific dates to classes in good time.

At GCSE, AS and A2 Levels, coursework tasks apply in some subjects and it is important that coursework is completed and submitted in good time so that students can concentrate on their revision for written examinations in those and other subjects.

Questions about Coursework/Controlled Assessment in a particular subject can be answered by your child's teachers in those subjects or by contacting the Learning and Teaching Vice-Principal, Mr Dawson.

Scroll down the page to find out when pupils in each of the Years 11-14 will be working on coursework/controlled assessment.

COURSEWORK AND CONTROLLED ASSESSMENT MAPPING 2015-16

YEAR 11

For a number of GCSE subjects, controlled assessment is ongoing in class and can be as much as 60% of the overall mark for the subject.
